ROUTEin

Operational Intelligence for Field Service

Knowing the real cost of every intervention

UNIVERSITÀ DEGLI STUDI DI BERGAMO

CREO

Competencies and Resources for Entrepreneurial Orientation

PROBLEM

Every day, technicians bring services to the customers

No visibility on travel costs

Kilometres and travel time are never attributed to contracts. They vanish into overhead.

Planning is still manual

Jobs assigned by phone and WhatsApp. Hours of coordination, every single day.

Margin erosion stays invisible

The real cost of serving each client stays unknown

NEED

The margin looks great Until travel is counted

WITHOUT ROUTE TRACKING	
Contract revenue	€ 85 000
Technician hours	– € 38 000
Materials and consumables	– € 9 500
Vehicle cost (flat monthly)	– € 6 200
Reported margin	€ 31 300
	36.8%

WITH ROUTE TRACKING	
Contract revenue	€ 85 000
Technician hours	– € 38 000
Materials and consumables	– € 9 500
Travel time	– € 8 400
Fuel and kilometres	– € 4 100
	WAS HIDDEN
True margin	€ 25 000
	29.4%

Illustrative example: sector cost structure

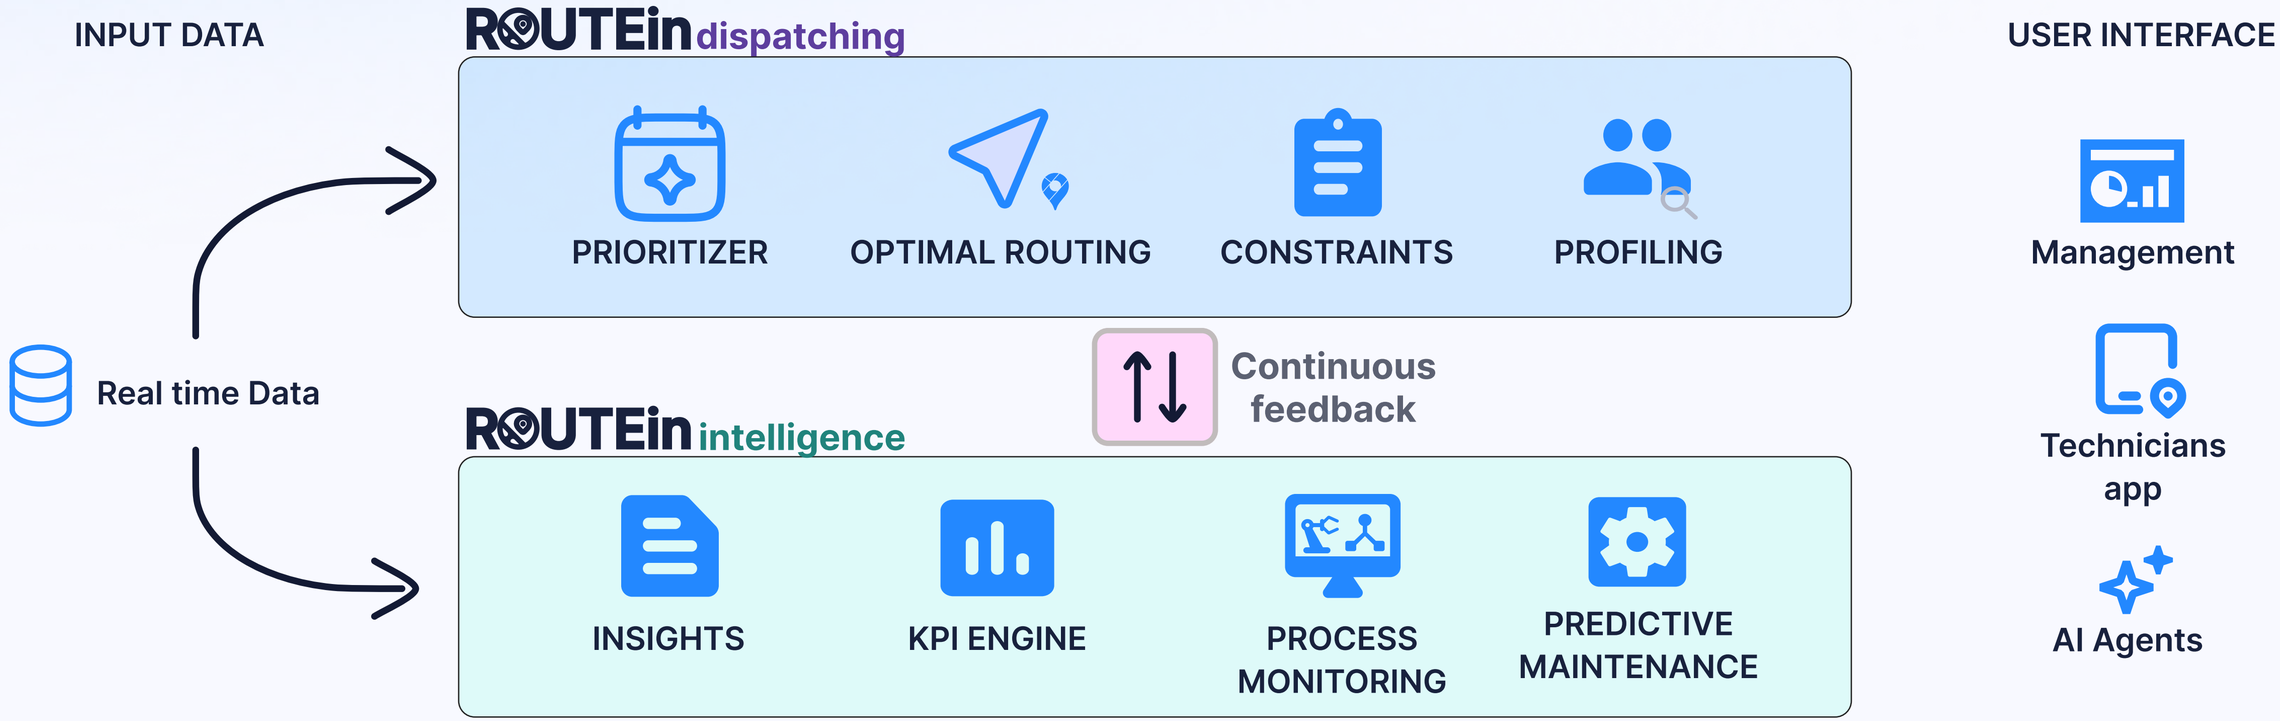

ROUTEin

A simple and integrable modular SaaS for your business

Solution

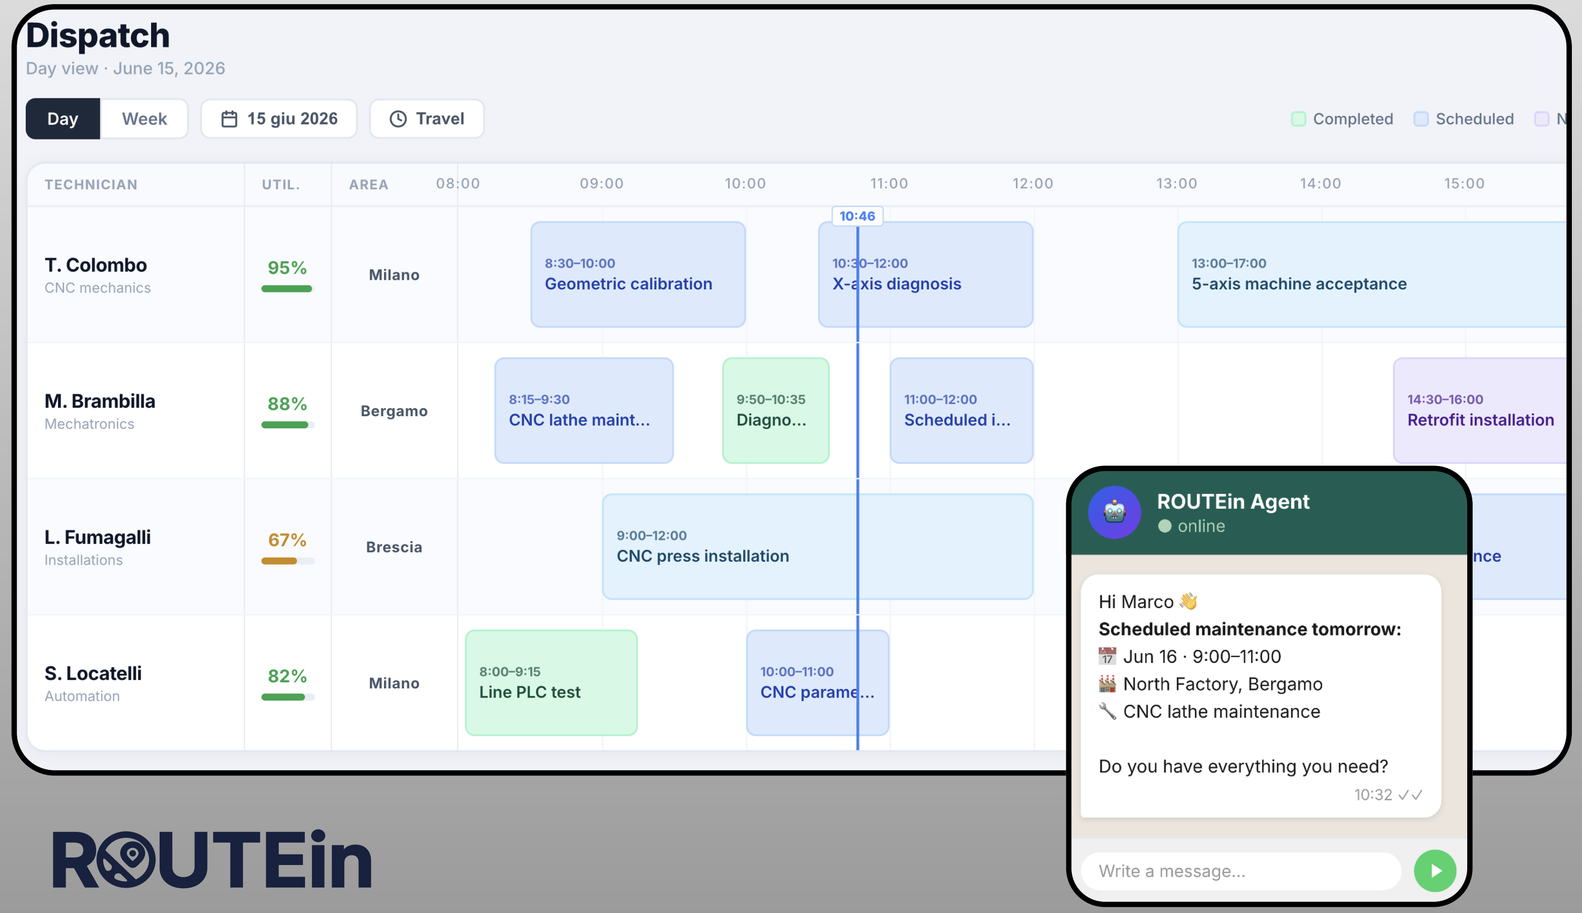

One platform, two layers

plan better, know what it costs

Solution

From plan to proof with tools ready to use

No tool to force on anyone

The agent lives in WhatsApp and the tools technicians already use

Cost & KPI monitoring

Everything you need in one platform

Learns from your data

Your operations data reveals bottlenecks, costs and patterns

ROUTEin

VALIDATION

We re-planned 42 days of real operations

6,260 interventions, 73 technicians, 11 teams, Jan–Feb 2025 | partner company data

428,880 km analyzed

-9.2%
Kilometers driven

821
hours recovered

7’097
Kg of CO_2 avoided

Same technicians. Same interventions. Better sequence.

VALIDATION

The waste starts before the route

Same-day reassignment between technicians of the same team & routes optimization

73,358 km analyzed

-13.2%
Kilometers driven

202
hours recovered

1,744
Kg of CO_2 avoided

Same technicians. Same interventions. Better Assignment.

MARKET

The tools exist. SMEs can't reach them.

12.3%

Annual market growth of Field Service Management (FSM)

Source: MarketsandMarkets

−26%

Kilometers reduction thanks to route optimization

Source: McKinsey & Company

+32%

Increase of Productivity after FSM adoption

Source: Salesforce

In Italy alone: 38,000+ field service companies, most still planning by phone and spreadsheet.

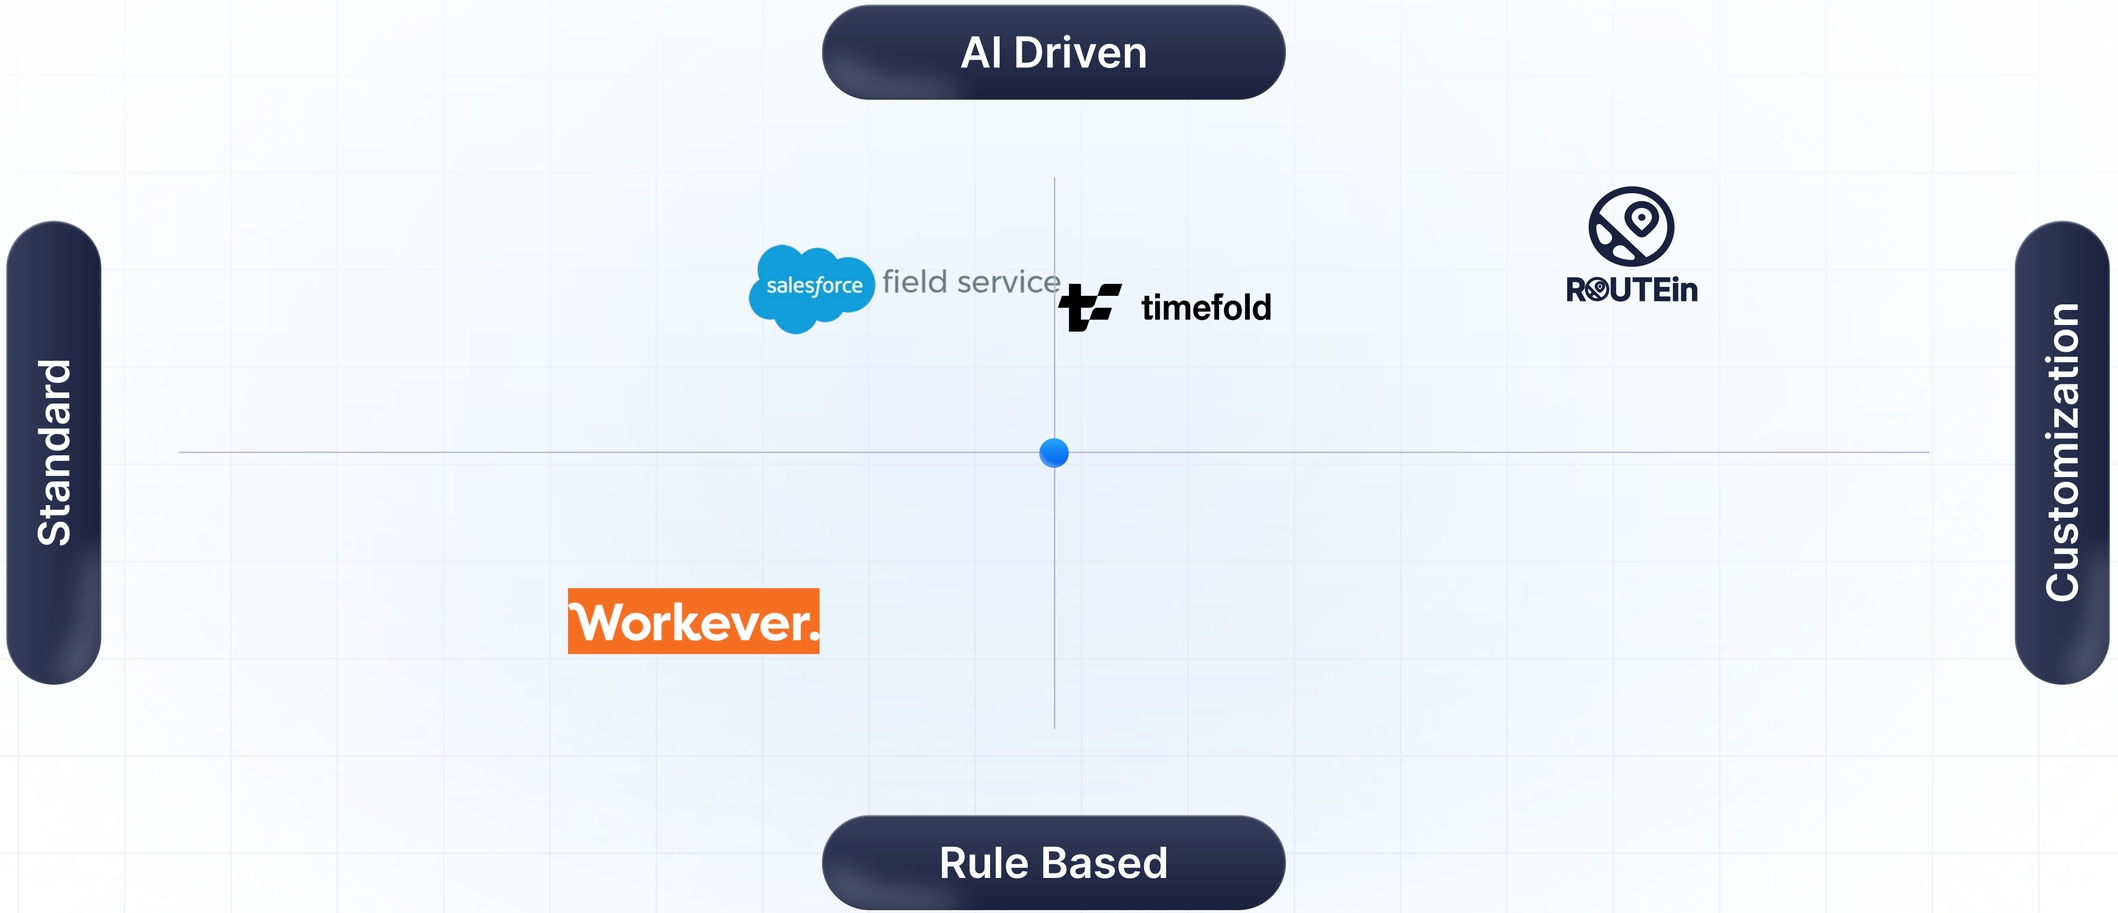

IMPACT

Industry 5.0

Competition: the gap we occupy

No SME tool combines dispatching optimization with contract-level cost attribution. We do
